RAPOL ROHAN REDDY

+91 9346132929 rohanreddyrapol@gmail.com linkedin.com/in/rohan-reddy/

Education

Anurag University, Hyderabad **October 2021 - May 2025**
B.Tech in Computer Science & Engineering *9.47/10 CGPA*
Narayana Junior College, Hyderabad **June 2019 - June 2021**
Intermediate SSC *98 PERCENTAGE*
Sri Chaitanya High School, Hyderabad **May 2019**
CBSE *88 PERCENTAGE*

Experience

PwC (PricewaterhouseCoopers LLP) **February 2024 – August 2024**
Launchpad Program Trainee *Remote*

- Completed a 6-month structured regulatory launchpad Development program with focus on business, technology, and professional skills.
- Achieved skill badges in Fundamentals of **Java, Python, Cloud & DevOps** and Fundamentals of **Cybersecurity, RDBMS**. I learned real corporate challenges and gained hands-on exposure to corporate problem solving

Projects

Personalized Medicine Recommendation System Using Machine Learning.

- Built a system predicting diseases and providing personalized medication, diet, and workout recommendations using Decision Tree, Random Forest, K-Means, and Hierarchical Clustering.
- Implemented supervised learning models (Decision Tree, Random Forest) for accurate disease prediction and unsupervised learning algorithms (K-Means, Hierarchical Clustering) to group patients with similar health profiles.

Automated Static Website Hosting on AWS with CI/CD.

- Designed and deployed a personal portfolio website using AWS S3, CloudFront, Route 53, and ACM for secure hosting and a serverless backend. Configured IAM roles and HTTPS security.
- Implemented CI/CD with AWS CodePipeline integrated with GitHub for automated updates, real-time deployments. Achieved high availability, fast load times witout managing servers.

Smart Summarizer : AI-Enhanced Multi-Language Summaries for Videos.

- Developed an AI-powered application to generate structured, multi-language summaries of YouTube videos, supporting over 12 languages.
- Integrated Whisper Large V3 Turbo for high-accuracy transcription and Llama 3.1 for nuanced summarization using LangChain for text chunking.

Skills

Languages: Java, HTML/CSS, JavaScript, Python(Basic).
Technical Skills: Cloud Computing, Fundamentals of AWS, Linux, Computer Networking, Operating Systems, Fundamentals of Machine Learning, SQL, MongoDB(Basic).
Soft Skills: Adaptability, Critical Thinking, Team Work, Presentation, Problem Solving.

Certifications

Cyber Risk & Regulatory Launchpad Program **August 2024**
PWC
AWS Academy Graduate **September 2023**
AWS Academy Cloud Foundations Badge
Data Visualisation: Empowering Business with Effective Insights **July 2024**
TATA
Excel Skills Job Simulation **July 2024**
JPMORGAN CHASE & Co.

Achievements

- Gained **hands-on experience** by participating in the International Pre-Conference Workshop on **"Cloud Services to Support Modern Applications"** at the **2nd International Conference on Advances in Computational Intelligence and Informatics** (ICACII 2023).
- Participated in **TECH HACK 3 (2024)**, a 36-hour national hackathon, competing among 35 teams and delivering innovative solutions that addressed complex challenges while demonstrating technical excellence in problem solving.
- Served as a core member of the **Kriya Event Management Club** successfully organizing **TEDx talks** and managing several events demonstrating team coordination and leadership.
